

Quirk Wire Co. routinely communicates with its raw material suppliers to ensure conformity with the European Union's Registration, Evaluation, Authorizations and Restriction of Chemicals (REACH) 250 (EC) regulation No. 1907/2006. REACH is a regulation of the European Union, adopted to mitigate the risks posed by chemicals and to improve the protection of the environment and of human health.

Quirk Wire Co. is committed to complying with the REACH regulation and confirms none of the 74 restricted (Annex XVII) materials or the 250 Substances of Very High Concern (SVHC), are found in any of the raw materials used in the manufacture of our high temperature wire and cable products, as of the last date of publication, June 25, 2025.

As substances are routinely added to Annex XIV, Quirk Wire will continue to stay abreast of any products that are identified to contain above the 0.1% threshold by weight.

If you have further questions or concerns that need to be addressed, please do not hesitate to contact us.
